

REMARKS

In the Office Action dated January 11, 2005, the Examiner raised an issue pertaining to the clarity of Applicant's Specification. Applicant has amended two paragraphs of the Specification to clarify the issues raised by the Examiner. In view of the fact that the drawing figures are the original figures of the application, no new matter has been added to the application in the amendment to the Specification. Applicant's originally filed drawing figures clearly provide enabling support for the amendment.

In light of the foregoing amendments and remarks, Applicant respectfully requests that the outstanding issue pertaining to the clarity of the Specification be withdrawn.

The Examiner is urged to call the undersigned at the number listed below if, in the Examiner's opinion, such a phone conference would aid in furthering the prosecution of this application.

Respectfully submitted,

Rochelle Lieberman
